Dear Local Official:

**RE: PIN 906784 – Bridge Deck Rehabilitation, State Route 17
Town of Sanford, Broome County &
Town of Deposit, Delaware County**

The New York State Department of Transportation (NYSDOT) would like to notify you of an upcoming bridge rehabilitation project in your community. Project Identification Number (PIN) 906784, contract number D264882, will address six bridges carrying State Route 17 in the towns of Deposit and Sanford in Broome and Delaware counties.

This project is scheduled to begin during the 2023 construction season and be completed during the 2024 construction season, although weather and resources may impact the schedule. Motorists should expect temporary lane and shoulder closures on State Route 17. Electronic variable message signs will communicate traffic pattern changes to travelers. These signs will be in place at least one week before work begins. Traffic patterns are expected to return to normal during the winter.

During the 2024 construction season, the westbound entrance ramp to State Route 17 at Interchange 84 (Deposit – Walton) will be closed. Traffic will be directed to the westbound entrance ramp at Interchange 83 (Oquaga Lake) via a signed detour route on Oak Street, Pine Street, Second Street and Old Route 17. A project location map and detour route map are enclosed for your reference.

If you have any questions or concerns, please contact Jeremy Brunner, Engineer in Charge, by mail at NYSDOT Region 9 Construction, 44 Hawley Street, Binghamton, NY 13901; by telephone at (845) 798-1183; or by email at Jeremy.Brunner@dot.ny.gov.

Please feel free to share this letter with your constituents, neighbors, or anyone else that may have interest in this information.

Sincerely,

Andrew Stiles, P.E.
Regional Planning & Program Manager
